

Imagine the possibilities...

MAG-IN[®] MAGNETIC INLINE FINISHING SYSTEM FOR YOUR PRINTING PRESS

**“Inline” Die Cutting, Perforating,
Creasing and Embossing**

In-line processing, almost without limits...

The affordable MAG-In® magnetic inline cutting system provides Letterpress quality Cutting, Perforating and Creasing “Inline” and at full speed during the printing process.

The MAG-In® system includes a high-tech magnetic base plate which can be easily installed into the printing unit or coating unit of the Press by removing the rubber blanket. The use of Metallic, flexible cutting tools on the magnetic base allows for short conversion times, while eliminating the need to outsource finishing work. You will save time as well as money with minimal effort.

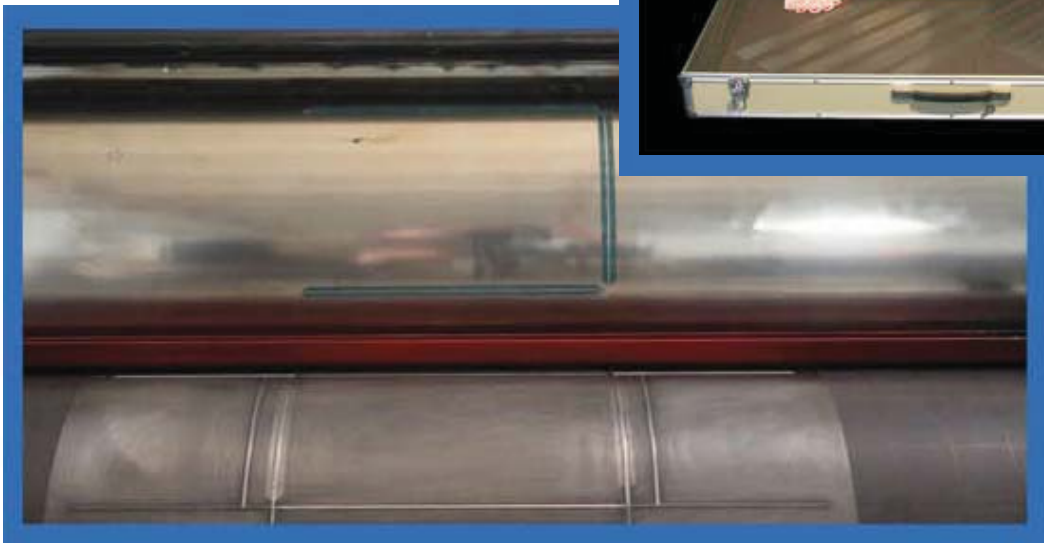

The MAG-In® system can be used in most every kind of Offset Press and is available in all formats for every Press Manufacturer, including, but not limited to the following: Heidelberg, Komori, Manroland, KBA, Mitsubishi, Ryobi.

The Press Manufacturer, Format Size, Type of Blanket Bar and Print Start Area is all we need to get started. No modifications are needed to your Press and the System can be installed in minutes.

The System includes:

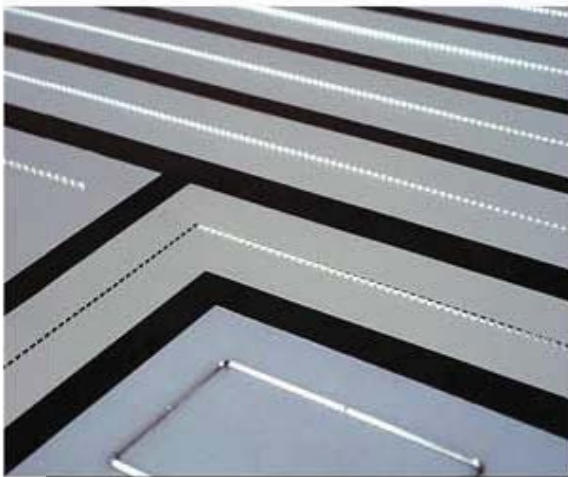

MAG-box	Solid Aluminum Hard case for set packing
MAG-base®	Magnetic jacket plate to be installed into the printing or coating unit
MAG-Super-care	Self-adhesive steel protection foil for the Impression Cylinder
Tape	To attach the flexible dies
Shears	Shears for cutting the flexible dies
Rasp	Rasp for burring the dies
Lifter	Lifter to lift of the flexible dies from the MAG-base®
Marker	Marker to mark the position of the flexible dies
Gloves	1 pair of safety gloves to protect against injury
User manual	Instruction Manual MAG-In® System Set (English)

Standard perforation flexible dies
Postcard perforation flexible dies
Creasing flexible dies
Sample perforation with 6 different perforations
Window flexible die

Flexible Cutting and Creasing Die is shown mounted on the MAG-base with the corresponding Female Matrix for Creasing shown on the Super-Care Impression Cylinder Jacket
